The Rhode Island Standard of Need provides a more accurate measure of economic well-being than the commonly used federal poverty level (FPL). The RISN calculates a household budget for families with two young children, and for single adults. The no-frills budget includes the costs of housing, food, transportation, health care, child care and other necessities including clothing, toiletries and telephone service. The RISN also demonstrates how work supports like food assistance, tax credits, and child care and health care subsidies help close the gap between income and basic need expenses.

1. FAMILY EXPENSES

Raising a family in Rhode Island is expensive.

Basic needs expenses for a single parent with a toddler & school-age child are $55,115. Child care & housing consume over half the family's budget.

- Child care: 33%
- Housing: 23%
- Food: 15%
- Health care: 11%
- Transportation: 9%
- Miscellaneous: 9%

2. HOUSEHOLD EARNINGS

Many Rhode Island households struggle to earn enough to meet basic needs.

- Of Rhode Island single-parent households earn less than the required $62,844*: 67%
- Of Rhode Island two-parent households earn less than the required $68,310*: 28%
- Of Rhode Island single adults earn less than the required $27,044*: 43%

*Pre-tax earnings

3. MEASURING ECONOMIC SECURITY

The Federal Poverty Level is an outdated measure of economic security.

- RISN Expenses: $55,115
- Federal Poverty Level: $60,300

4. WORK SUPPORTS CAN HELP ELIGIBLE FAMILIES

Jenna is a single mom of nine-year-old Kevin and three-year-old Erica. Jenna works as a manager at a grocery store and has annual gross earnings of $28,676.

Jenna’s budget with Child Care & Health Care subsidies is: in the black $295 each month.

Without Child Care & Health Care subsidies it’s: in the red - $1,270 each month.

*Assumes two children: a toddler and a school-aged child.
WORK SUPPORTS CAN HELP ELIGIBLE FAMILIES

Families ineligible for child care assistance cannot make ends meet

Isabella earns $37,600 as a Community Health Worker. She has two sons, Julio age 3 and Marco, age 9. Isabella is enrolled in the insurance plan offered by her employer, but can’t afford the family plan and her sons are enrolled in Rite Care. Isabella’s income is just above the child care assistance income eligibility level.

An early learning program for Julio and after school care for Marco would cost Isabella:

$1,502 each month

If she enrolls her children, her budget would be:
in the red - $736 each month

LARGE BUDGET GAP FOR CASH ASSISTANCE RECIPIENTS

Parent with Two Children Receiving Rhode Island Works (RI Works)

The Rhode Island Works Program (RI Works) is the state’s cash assistance and work-readiness program for families with children. The monthly benefit amount ($554 for a family of three) has not increased in over forty years.

Counting SNAP and Rhode Island Works benefits, the budget for a single-parent with two children is:
in the red - $1,500 each month

Individual Receiving Supplemental Security Income (SSI)

The Supplemental Security Income Program (SSI) is the federal cash assistance program for people age sixty-five and older and people with disabilities who have limited resources and income. The monthly benefit in 2018 for a single adult is $789.92 ($750 from the federal benefit and $39.92 from a state supplement).

Counting SNAP and SSI benefits, the budget for a single adult is:
in the red - $685 each month
