Many Rhode Islanders work at jobs that pay wages that are too low to meet basic living costs including housing, food, health care, and child care. Work support programs can help narrow the gap between earnings and expenses. Since Black and Latinx Rhode Islanders are overrepresented as a share of Rhode Island’s low-wage workers, enhancing such programs as well as paying all workers a living wage, would serve to decrease disparities. This year’s RISN is expanded to include examples of how workers fared during the COVID pandemic. This infographic provides information from seven of the nine findings.

For the full 2020 RISN visit: [www.economicprogressri.org/RISN](http://www.economicprogressri.org/RISN).

### 1. **FAMILY EXPENSES**

Raising a family in Rhode Island is expensive. Child care & housing consume over half the budget for a single-parent with a toddler & school-age child.

![FAMILY EXPENSES Chart](chart1.png)

- **Child Care**: 31%
- **Housing**: 23%
- **Food**: 15%
- **Health Care**: 12%
- **Transportation**: 9%
- **Miscellaneous**: 9%

$57,671/year in total expenses

Does not add up to 100 percent due to rounding.

### 2. **HOUSEHOLD EARNINGS**

Many Rhode Island households do not earn enough to meet basic needs.

Latinx and Black Households less likely to meet expenses

- **Single Adult**
  - Latinx: 72%
  - Black: 59%
  - Asian: 56%
  - White: 49%

- **Single-Parent Family**
  - Latinx: 91%
  - White: 63%

- **Two-Parent Family**
  - Latinx: 56%
  - White: 20%

52% of Rhode Island single adults earn less than the required $30,600*

74% of Rhode Island single-parent households earn less than the required $66,057*

27% of Rhode Island two-parent households earn less than the required $73,646*

* Pre-tax earnings

### 3. **MEASURING ECONOMIC SECURITY**

The Federal Poverty Level is an outdated measure of economic security.

![MEASURING ECONOMIC SECURITY Chart](chart2.png)

- **RISN Expenses**
- **FPL**
- **200% FPL**

### 4. **A LIVING WAGE**

Increasing the minimum wage would improve the economic well-being of low-wage workers, especially women and Black and Latinx Rhode Islanders who are disproportionately minimum wage workers.

![A LIVING WAGE Chart](chart3.png)

- **Previous RI Minimum Wage**: $10.50/hr (ended Sept 2020)
- **Current RI Minimum Wage**: $11.50/hr
- **RISN for Single Adult Worker**: $14.71/hr
- **Current RI Minimum Wage**: $15.00/hr

- **Minimum Wage Worker**
  - $21,840*
  - $23,920*
  - $30,600*
  - $31,200*

* Annual incomes assume full-time year-round employment, at 40 hours a week.
LARGE GAP FOR CASH ASSISTANCE RECIPIENTS

Rhode Island’s essential workers of often struggle to make ends meet during the COVID-19 pandemic. The CARES Act and additional government support helped workers in this time of crisis. Many essential workers live on inadequate salaries. COVID-19 has created challenges for Rhode Island’s essential workers, among whom Latinx and Black workers are overrepresented. Many people on the frontlines of the COVID-19 crisis are doing work identified as essential, including many who earn low wages such as CNAs, home health aides, janitors in health care facilities, and grocery store clerks. Stacey, a direct care worker earns $14.40 per hour helping some of Rhode Island’s older residents remain in their homes, while her husband Pete stocks shelves at a grocery store earning the minimum wage of $11.50 per hour.

Rhode Islanders receiving Rhode Island Works (RI Works), who are disproportionately Black and Latinx, or Supplemental Security Income (SSI) have significant gaps between income and basic living expenses.

**RI Works**

The maximum monthly benefit amount ($554 for a family of three) has not increased in almost thirty years.

**SSI**

The maximum monthly benefit in 2020 for a single adult is $822.92 ($783 from the federal benefit and $39.92 from a state supplement).

Cash Assistance Is Not Enough to Offset Expenses.

Many Essential Workers Live on Inadequate Salaries.

Stacey and Pete, parents with two children and combined earnings of $52,400
